

## **Vegetation Management Plan**

A Vegetation Management Plan is the assessment, implementation, and maintenance used to mitigate the hazards of potential wildfire for a specific project or geographical area. A Vegetation Management Plan is to address specific courses of action, responsible parties, resources and priorities. Components of a Vegetation Management Plan may include, but not limited to: modification of fuels, removal of fuels, fire safe landscaping, defensible space, shaded fuel breaks, fire breaks, and other such means to mitigate the hazards of wildfire. Components contain specific prescriptions to be used in the Vegetation Management Plan with the intent of reduction of wildfire hazard.
